*RRS is a company offering assistance to the railroad industry of North America.*

## Services Include:

### Expert Witness

Expert legal services for derailments, personal injury, and mechanical car operations.

### Derailment Analysis

Analysis of derailment and rerailing expertise. This can include working to rerail cars as well as determining cause of derailment.

### Audit Repair Track

Perform safety audits on trains, train yards, and repair track facilities.

### Material Expediter Services

Quick pick up and delivery of rail parts under time constraints.

### Inspect Store Cars

Inspection includes pictorial and written reports.

### Inspect Rail Cars

Inspection of cars including air brake testing, and measure and clear high/wide loads.

### Evaluation and Assessment

Assessment of rail car cleaning, evaluation of load shifts and adjustments and evaluation of other repairs performed on rail cars. Provides expert knowledge in pre and post inspection for a successful audit with FRA and AAR.

### Instruction

Offers instruction in rail car repairs, AAR/FRA procedure inspections, and air brakes.
